BASE ELEGANCE
BASE PERSISTANT
BASE GEL
RUBBER BASE
RUBBER BASE NUDE
TRANSPARENT NATUR.
SIRIUS TOP
SPLENDOR TOP
GOLD STAR TOP
GOLD SILVER TOP
WICKED MATT TOP

KOSTKA TOP COAT SIRIUS

Sirius Top Coat is tack-free, high gloss Top Sealer with slight optical brightener added to avoid yellowing yet is carefully balanced to have minimum color distortion.
Cures under UV/90 sec, LED/30 sec.
Works with chrome and color powders.
Won't dull their shine.
This formula is fully compliant to EU regulations.

KOSTKA BASE PERSISTENT

Base Persistent
This is Long wear, builder base with the highest adhesion.
Because of its medium consistency, it can also be used for filling ridges and building a smooth apex on uneven nails.
Due to strong adhesion, increase wear time, Even on oil and damage nails.
It can be used in a thin layer for those who prefer the natural look of the nails or in thicker layers as a builder base or ridge filler to fix problematic nails.
Long wear time. Medium consistency. Ridge filler. For perfectly smooth surfaces.
UV/LED 90/30 sec
Not tested on animals, Non-toxic, Don't flow in cuticles, 100 % self-leveling
Resistance to strip and shock test. Applications in a thin or thick layer
This formula is fully compliant to EU regulations.

KOSTKA BASE ELEGANCE

This Base is low viscosity, very thin, specially formulated to imitate Nail Polish effect.
Base Elegance will be convenient for customers who prefer a completely natural look of their nails.
Despite low viscosity of the base, it is still very firm, long-lasting and has excellent adhesion with the natural nail plate.
Base Elegance is not recommended for beginners, only for professional use.
Removes in 5 minutes with no damage to the nail.
Does not shrink back from the free edge of the nail, can do 5 nails at the time.
Applies like a Nail Polish in a very thin layer adding no thickness to the natural nail.
Especially recommended for a pedicure. Soak off formulation. No testing on animals
Completely made in Eu, including Raw materials. Non-toxic.
Don't flow in cuticles. Self-leveling. Extra durability
Resistant to stripe and shock test. Application in a thin layer
Cures 30 sec/LED – 90 sec/UV. This formula is fully compliant to EU regulations

BASE

GEL

Thin Base gel, works as an adhesion promoter to natural nails.

Low viscosity.

UV, CCFL and LED compatible

15ml

www.kostkanailsystem.it

RUBBER BASE

RUBBER BASE NATURAL

RUBBER BASE NUDE

This formulation is great for reinforcing thin, brittle or splitting nails. The thick consistency allows the product to act as ridge filler. Kostka Rubber Base Natural is the perfect combination of toughness and elasticity for extra durability. Contains a very flexible components with superior adhesion. The base shows a pronounced camouflaging effect in Nude shade. • Extra durable and long-term wear-ability • Superior flexibility and adhesion • Smooths • Thick consistency • Soak off formulation • Great for weak nails • Elastic • Easy to apply & does not spread

RUBBER BASE CLEAR
